For Charlotte – Christmas 2025

This is a quilt especially designed and handmade for you.

Love Aunty Pamela

General Care

- Your quilt is made from cotton fabric with cotton-polyester batting (filling).
- Use it gently for the first few months to allow seams and quilting to settle.
- Air the quilt occasionally in the shade to freshen it and release moisture.
- Occasionally, seams may come loose. If so, feel free to reach out to me and we can fix it up.

Washing

- Use cold water and a gentle cycle (or hand wash).
- Avoid bleach, fabric softeners, or harsh cleaners.

I already washed the quilt with colour catchers before giving it to you… BUT the colour still might run, especially if you use warm water. It would be best not to wash with other items. I have included a couple of extra colour catchers for you. Just add them in the wash with your quilt. If the colours run, they will soak up the colour and be a good indicator of whether the quilt has finished running.

Drying

- Air-dry flat if possible, supporting the quilt fully to avoid stretching.
- If using a dryer, choose low heat and remove while slightly damp.
- Finish drying flat or over a large rack.
